SAVANT

SAVANT LEVEL 2 EV CHARGER

The Savant Level 2 EV Charger lets you spend less time in the garage and more time on the open road with fast charging capability. Plus, it leverages full integration with your Savant Power System to bring all the benefits of truly smart energy to your car or truck:

- Monitor charging status and track history in real time
- Schedule charging to take advantage of off-peak electricity rates
- Adjust charge rates to minimize energy costs during peak demand or off-grid use
- Set minimum, maximum, or custom charge rates to match your needs

Designed for easy installation indoors or out, our EV charger is durable, rain-tight, and features high output power. Compatible with most electric vehicles including Tesla* models.
