TAKE CHARGE WITH TRUEIMAGE

For a personal and intuitive experience use photos to control the lights throughout your home.

Exclusive TrueImage technology delivers sophisticated lighting control with true-to-life images. Use the Savant Pro App to take photos of lighting in every room. Simply touch the image of the lights to adjust color and brightness in real time.
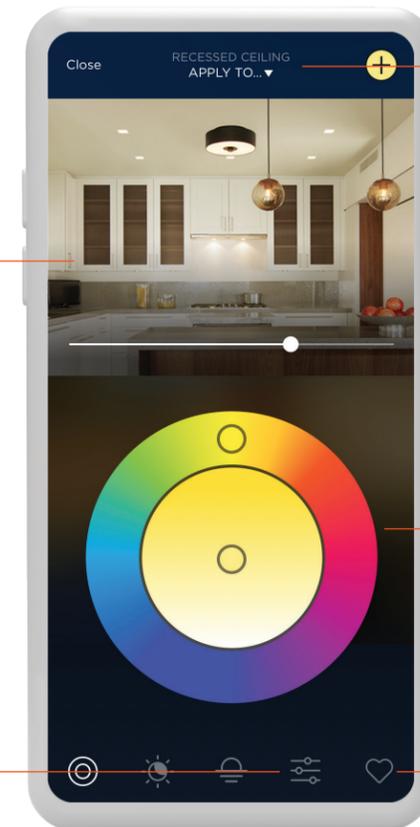

Tap on **Distribution** to send the selected color and brightness to other lights in your home.

Tap on the **Image** of the light to toggle it on and off.

Light and enhance every room with a near infinite range of colors.

Tap on the **Sliders** to access **WRGB** control of your lights, which allow for extremely detailed color selection.
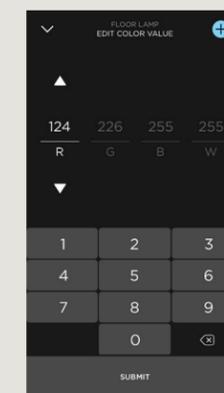

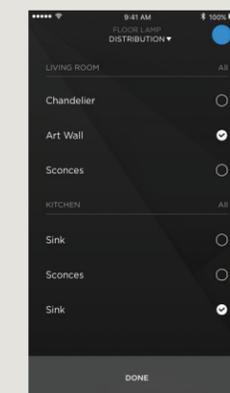

Tap on **Favorites** to access a list of your most used colors.

A PERSONALIZED WELLNESS EXPERIENCE

Designed to promote healthy living, Daylight Mode enables your lights to seamlessly transition throughout the day to support your circadian rhythm.
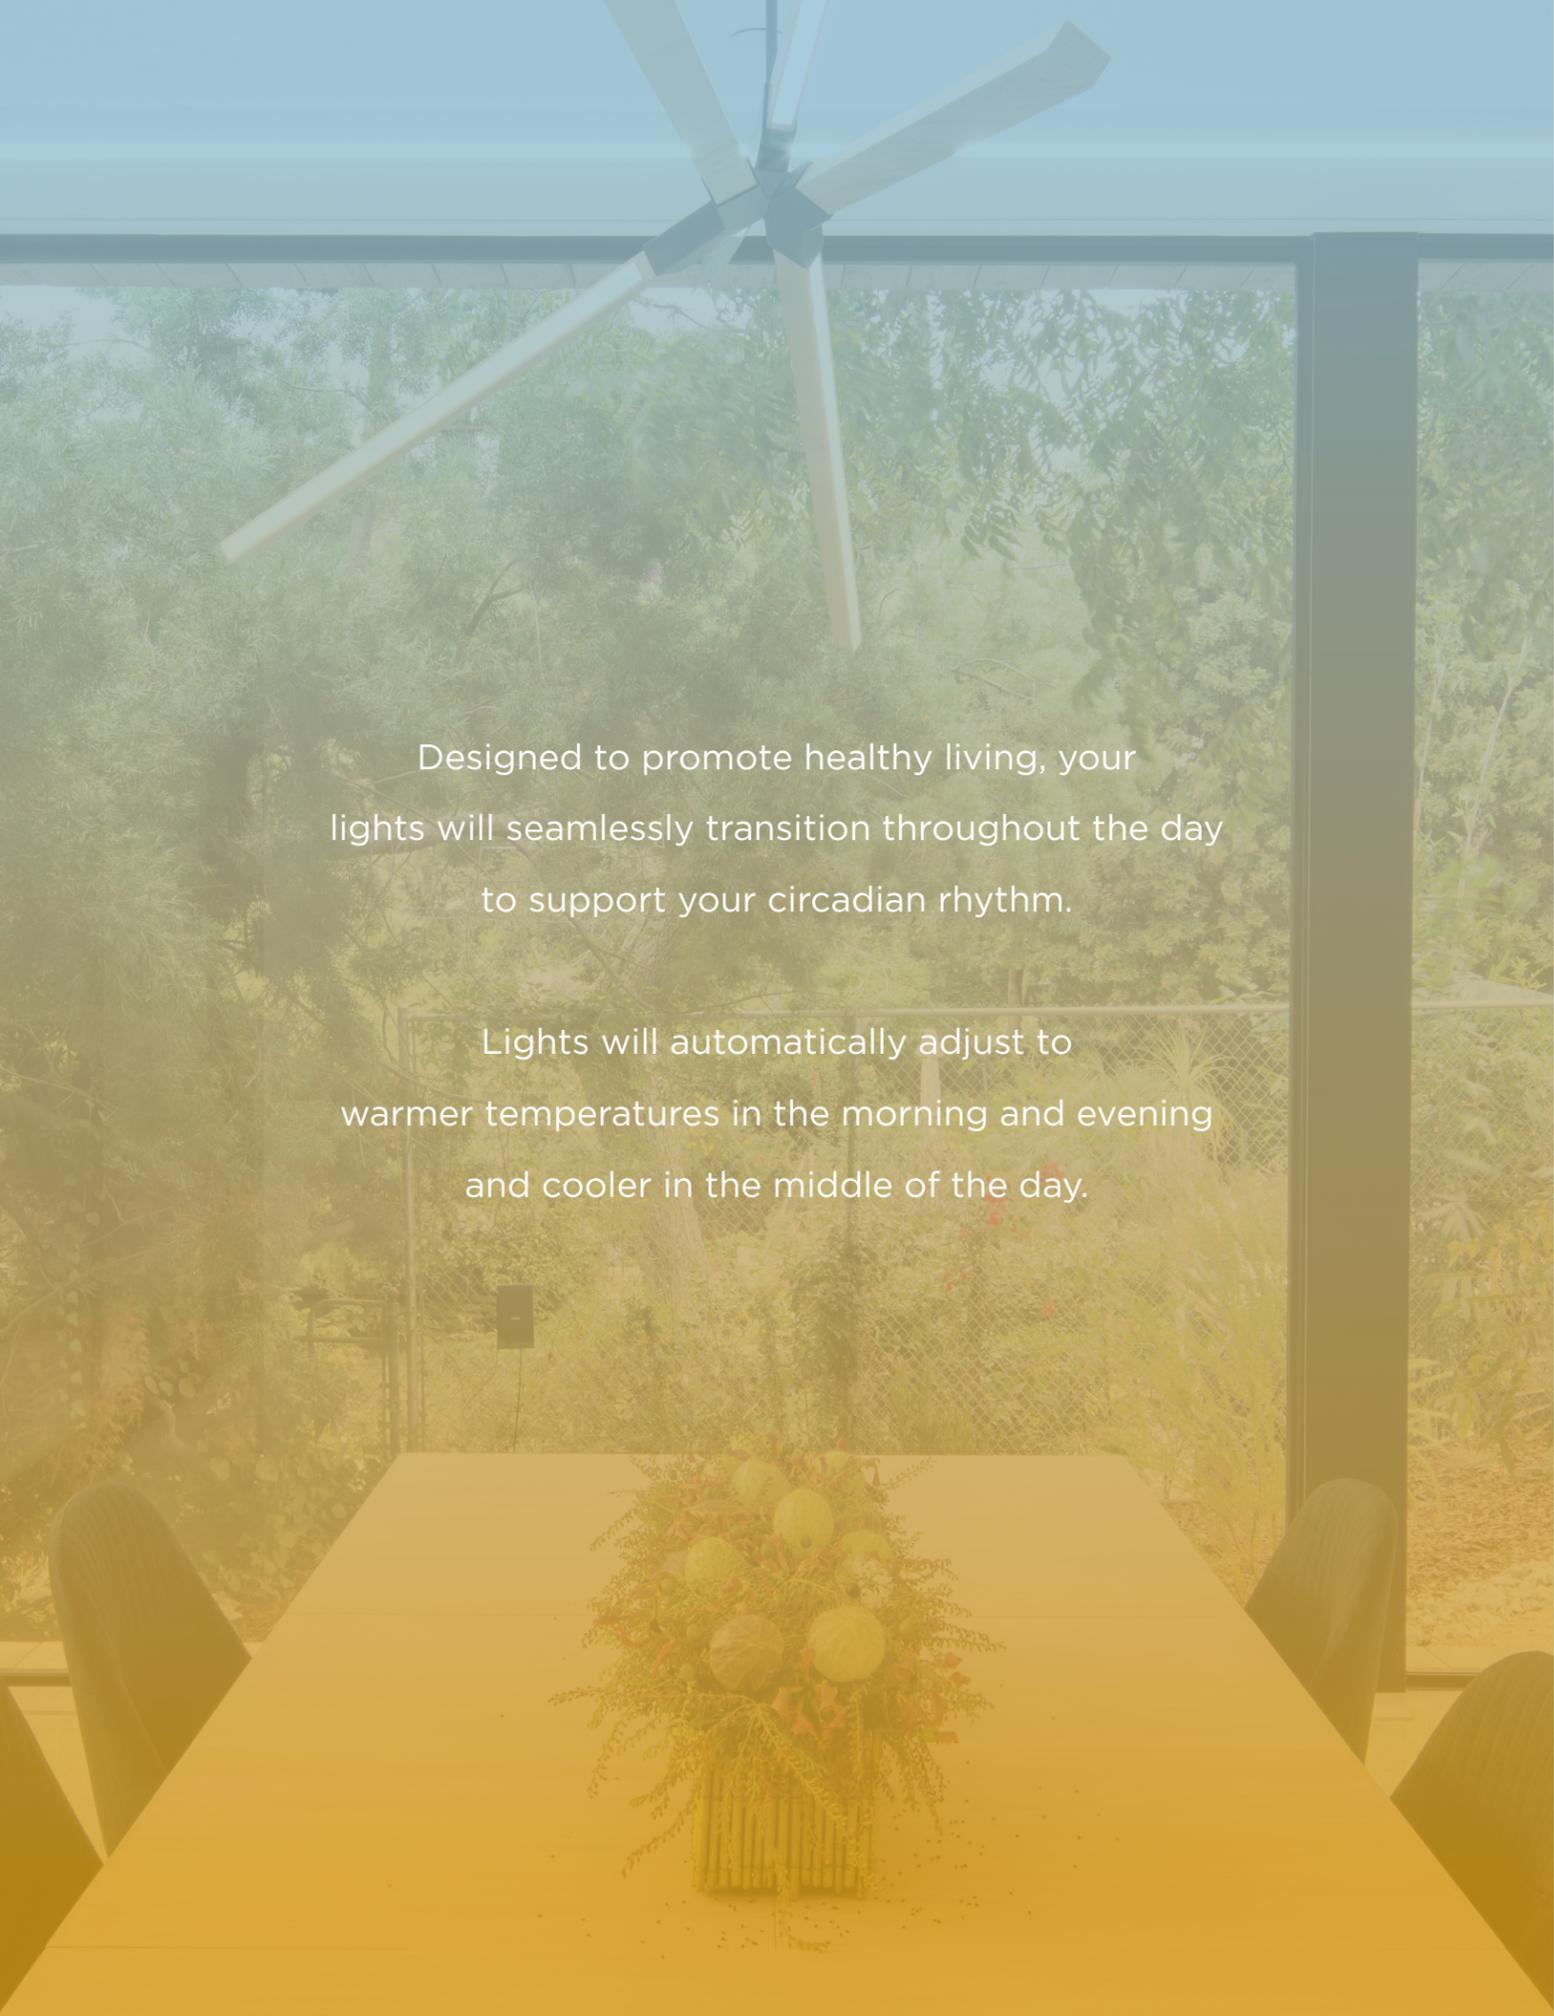

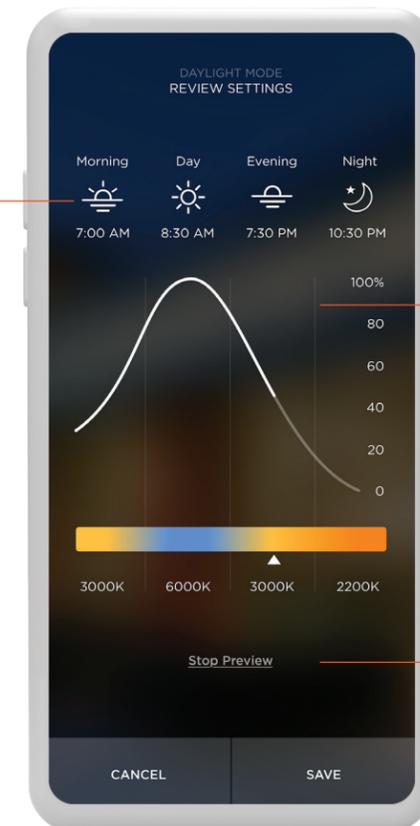

Designed to promote healthy living, your lights will seamlessly transition throughout the day to support your circadian rhythm.

Lights will automatically adjust to warmer temperatures in the morning and evening and cooler in the middle of the day.

Select from scientific defaults, or personalize the lighting experience suit your daily habits

Independently adjust timing, color temperature and intensity for bright white light during the day and warmer tones in the evening hours

After all adjustments are made, activate the **Preview Mode** to experience your 24-hour circadian settings in just 60 seconds
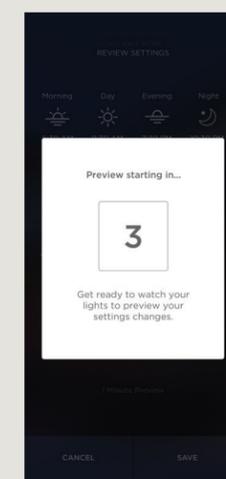

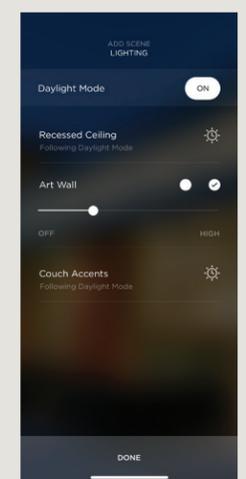

| Mode Status | Room Selection | Personalization | Start Preview | Circadian Scenes |

A SCENE FOR EVERY MOMENT

Scenes are handy app settings that put lighting routines at your fingertips: home arrival, bedtime and more.

Create instant ambiance with a touch using captured scenes.

Custom scenes can be unique to each user or **Shared**.

Tap on **+** to create a new scene.

Create **Schedules** for your lights based on exact time, dawn, sunrise, sunset or dusk.

SCENES ON A BUTTON

Create a favorite scene in the Savant Pro App and assign it to a button on a Metropolitan or Echo Keypad.

Assign your Scenes to a button on an Echo or Metropolitan Keypad directly from the Savant Pro App.

Create the Scene you want or use a preexisting one, then choose which button to assign it to in your Savant Pro App.
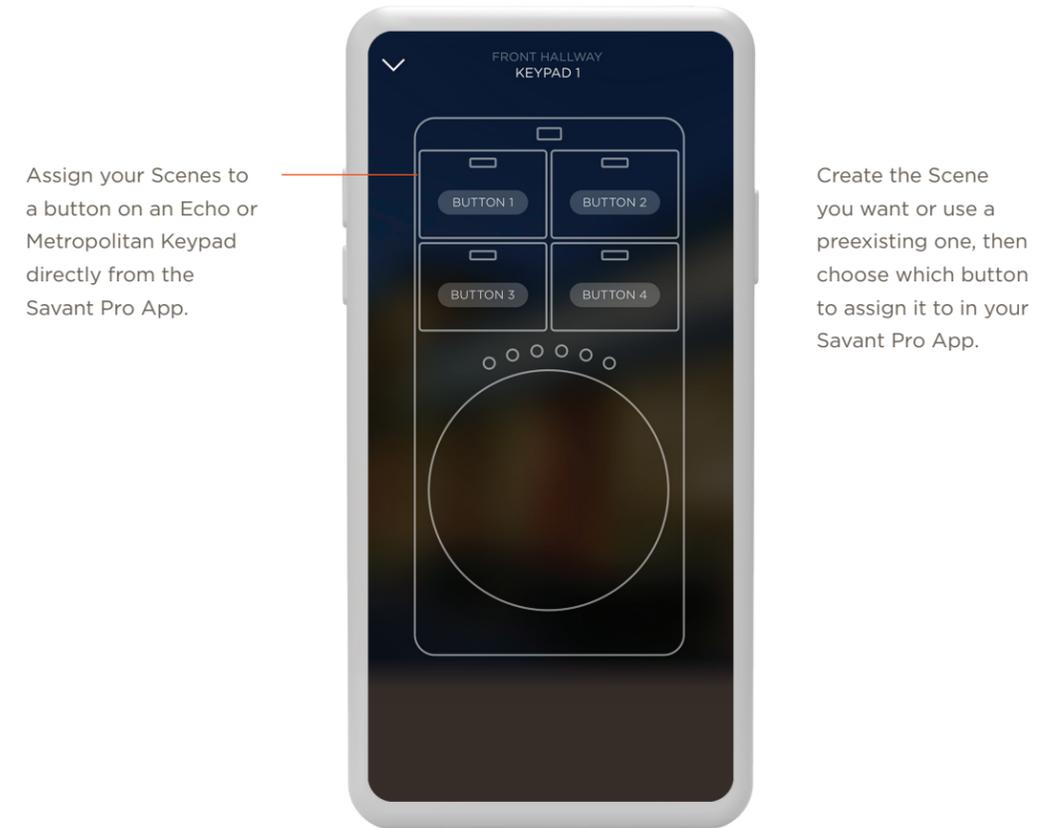

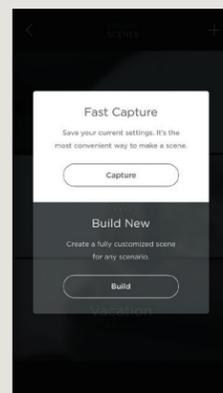

Edit Scenes	Create New Scene	Scene Timer	Shared Scene	Custom Image
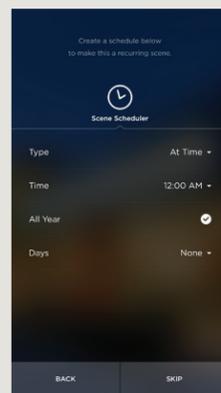

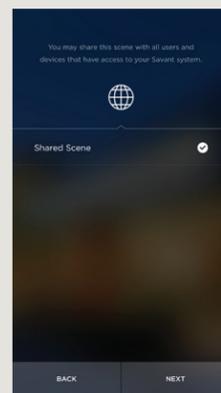

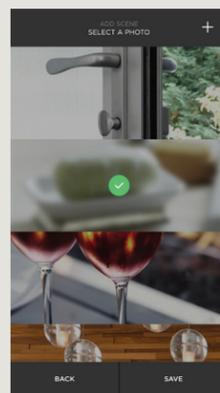

UNMATCHED CONTROL

Be in complete control of your lighting with interface options including keypads, wall switches, touchscreens, remotes or voice commands.

Stay in control of your lighting remotely with a built-in secure remote connection to your home from the Savant Pro App.

SIMPLIFIED INSTALLATION

Savant's Lighting and Energy
Modules are designed to be
installed into standard electrical
panels, eliminating the need for
large, costly proprietary panels.

THE PANEL BRIDGE CONTROLLER

Eliminates all low voltage wiring
inside the panel simplifying
installation and local inspection.

MORE THAN TRADITIONAL LIGHTING CONTROL

Engineered by Savant and sister

company Racepoint Energy, the
lighting and energy modules are
designed to deliver control and
energy management of lighting
loads, as well as other electrical
loads throughout the house.

Connect large appliances, outlets,
pool pumps and other electrical
loads up to 30 Amps to one of
Savant's relay modules and deliver
energy consumption data across
the whole home.

LIGHTING FIXTURES

Pair USAI Lighting fixtures with a
Savant lighting control system for
an enhanced lifestyle including WRGB
color selection plus the choice of a
range of Kelvin temperature settings
that synchronize seamlessly with your
daily routine.

• **Savant Control -** More than just lighting, buttons can control audio, video, shades, climate and more, plus Scenes created in the Savant Pro App can also be saved to a button

• **Expandable -** Support for up to 32 loads with S2 Hosts, 64 loads with Smart Hosts and unlimited load count with the Pro and Super Pro Hosts

ASCEND STYLE LOW VOLTAGE KEYPAD

Ascend Style Low Voltage Keypads are available in 3 different button configurations and 8 finishes. These high-end keypads are designed to be easily read from standing height. Backlit engraving can be set to one of 9 different colors.

ECHO STYLE LOW VOLTAGE KEYPAD

Echo Style Low Voltage Keypads are available in 10 different button configurations and three finishes. They are designed to be easily read from standing height and backlit engraving can be set to one of 9 different colors.

METROPOLITAN STYLE LINE VOLTAGE KEYPAD

Metropolitan Style Line Voltage Keypads are available with multiple options plus our classic,
intuitive dial for dimming or volume control.

LIGHTING AND ENERGY MODULES

DUAL ADAPTIVE PHASE DIMMER

Designed for use with a variety of loads, with control capability for dimming two loads up to 500 VA. Automatically reports energy usage into the Savant Pro App for flexible load management. Compatible with either QO or Homeline style electrical panels.

DUAL FORWARD PHASE DIMMER

Designed for use with loads that require forward phase dimming including Magnetic Low Voltage. Control capability for dimming two loads up to 300 VA or a single load at 600VA. Automatically reports energy usage into the Savant Pro App for flexible load management. Compatible with either QO or Homeline style electrical panels.

DUAL RELAY 20 AMP

The Dual Relay 20 Amp Module is designed to control two 120V circuit loads, and can readily switch two 20A loads independently including lighting, plug loads or any other electrical appliance up to 20 Amps. Automatically reports energy usage into the Savant Pro App for flexible load management. Compatible with either QO or Homeline style electrical panels.

SINGLE RELAY 240V 30 AMP

The Single Relay 240V 30 Amp Module is designed to control a single 240V circuit load, and can readily switch a single 30 Amp load for large appliances. Automatically reports energy usage into the Savant Pro App for flexible load management. Compatible with either QO or Homeline style electrical panels.

SINGLE NC-NO CONTROL RELAY

The single NC/NO Control Relay companion module is designed to control one Square D™ Powerlink™ Remote controlled circuit breaker. This relay module is an essential building-block within the Savant critical load management architecture. It can dynamically switch critical and non-critical loads on / off based upon previously set parameters. Compatable with QO style electrical panels.

LOW VOLTAGE CONTROLLERS

WIRED DMX LOW VOLTAGE CONTROLLER

Savant's stand alone Wired DMX Low Voltage Controller allows for use of USAI Lighting's Infinite Color+ fixtures and Savant's pro grade light strips. Utilizing RDM setup could not be easier, which allows the controller to automatically discover all of the fixtures or strips on the channel.

KEY FEATURES

• Support for up to 32 fixtures or strips
• RDM support
• RJ45 DMX connection

WIRED 0-10V LOW VOLTAGE CONTROLLER

Savant's stand alone 0-10V Low Voltage Controllers pair perfectly with USAI Lighting fixtures allowing for both intensity control, as well as dual output options for Tunable White. 0-10V lighting provides superior dimming to traditional phase dimming using more traditional wiring.

KEY FEATURES

• 8 Outputs, up to 64 fixtures or a maximum of 8 fixtures per output
• Note that a max of 32 USAI Lighting color select, tunable white fixtures per controller

PANEL BRIDGE CONTROLLER

The Savant Panel Bridge acts as the primary interface between Savant Lighting and Energy Modules and the system's network. Each Panel Bridge communicates with up to 40 modules.

POWER SUPPLIES AND ACCESSORIES

10 KEYPAD POWER AND CONTROL MODULE

Provides wired power and communication for up to 10 Savant Low Voltage Keypads making it a great solution for smaller projects.

40 KEYPAD POWER AND CONTROL MODULE

LOW VOLTAGE POWER MODULE ENCLOSURE

Provides wired power and communication for up to 40 Savant Low Voltage Keypads. The keypad power and control module is designed to be installed inside the Low Voltage Power Module Enclosure. Up to 3 modules can be installed into the power module enclosure or can be mixed with Savant 5 Shade Power Modules.

LAMP CONTROL

Convenient wireless control of lamps, and switched loads. Works with both Echo and Metropolitan interfaces.

ENERGY SERVICE IN SAVANT PRO APP

In addition to sophisticated lighting control features including TrueImage, WRGB color settings and Daylight Mode, the Savant Pro App provides real-time, utility grade energy information.

Homeowners can use this data to monitor energy usage trends, see real-time consumption and activate pre-defined Energy Modes. Energy Modes are like Savant Scenes for energy consumption.

Pair the Savant System with Racepoint Energy Solar Panels and battery storage systems and homeowners can now manage energy generation, storage and consumption.
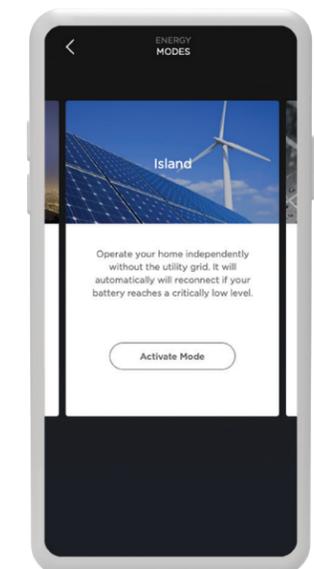

MONITORING
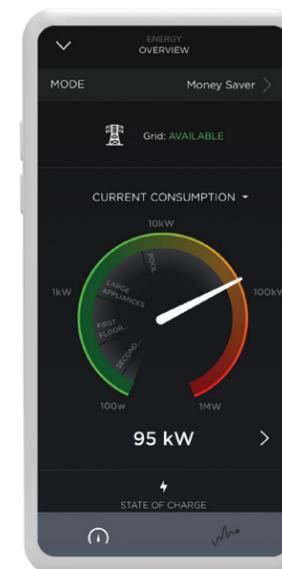

HISTORY
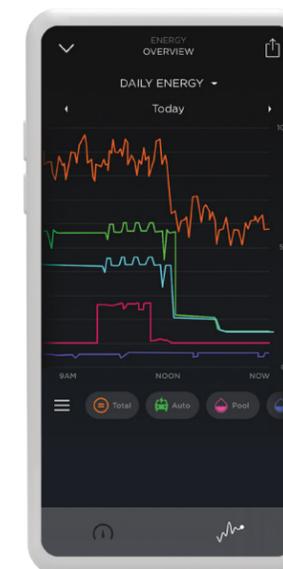

ENERGY MODES

SAVANT PRO

Savant lighting control products automatically report real-time, utility-grade energy information to the Savant Pro App. Homeowners can use this information to dynamically manage energy usage throughout the home.
