SAVANT SCENES

Capturing, creating, and editing Scenes is easier than ever.

Tap the **+ icon** to capture or build a Scene. Each step has been designed for simplicity.

Swipe left on a **Scene** name to edit, set a countdown timer, or delete.

Scenes can be set as shared or left as personal. Shared Scenes are available to all users as well as accessible from in-wall touch screens.

Press and Hold or Force Touch on iOS to reorder Scenes.

USER PROFILES

Let everyone in your house enjoy the benefits of Savant.

The **Users** screen shows a list of who can use your Savant Home.

Add a new user profile by tapping the **+ icon** and choosing from three different user types.

After inviting someone to your Home, tap on the new user profile to grant permission for **Control** of different rooms, services, or the ability to access your home remotely.

SETTINGS

The Settings screen lets you add photos, create notifications, access audio and device settings, and more.

Users with access to more than one Savant Home can tap on **Switch Homes** to select another system.

Change the photo associated with a room in **Room Settings**.

Select **Users** to manage profile settings or log out. Administrators can also set privileges for other users

Set your local cable TV **Provider** for channel favorites.

Choose **Audio Settings** to access options like equalizer presets per audio or video service, per room.

Tap the **Camera Icon** to add a custom image of your home.

Assign Scenes to keypads or custom buttons in your home

Set up **Notifications** that will alert you to changes in your Savant Home.

The **System Information** option displays software version and other technical information about your Savant Pro App and other Savant products in your home.

LIGHTING

Lighting control in the Savant Pro App can easily be done by room, or by individual light.

Lighting control options vary based on installed lighting products and configuration.

Tap a **Lighting Icon** to bring up convenient, pre-set options that let you control all the lights in a room with a touch.

To adjust individual lights, tap the **Lights** bar at the bottom of the screen and manually dim or brighten the light using the slider.

Choose from millions of colors or pre-set whites that match your circadian rhythm. Take a Truelmage photo of your light with your device. At a touch, see the color and brightness simultaneously change in your virtual light and in your real-world fixture.

CLIMATE

Climate control in the Savant Pro App allows for instant control of rooms, as well as scheduling.

There are three climate modes. In Heat or Cool mode, simply use the sliders or arrows to set the temperature you want. In Auto mode, use the sliders to set an appropriate temperature range. Tap the **Settings Icon** to change modes.

Tap the **Calendar Icon** to put your climate on a schedule—your home can start warming every day at 6am, or cool off in the evening.

To temporarily override a schedule, press and hold the climate control circle to bring up a **Hold Temperature menu**.

ENERGY MONITORING & MANAGEMENT

The Savant Pro App provides real-time, utility grade energy information.

View and monitor energy usage trends, see real-time, utility grade consumption data and activate pre-defined Energy Modes. Energy Modes are like Savant Scenes for energy consumption.

Pair the Savant System with Racepoint Energy Solar Panels and battery storage systems and now you can manage energy generation, storage and consumption.

AUDIO

Fully updated for version 9.4, the Savant Pro App offers a personalized, easy-to-use entertainment experience.

The **Global Now Playing** screen shows all active audio/video services, and allows you to control the volume in each room.

Tapping the **...** icon on the Global Now Playing screen brings up the **Distribution** screen, which lets you play audio/video in additional rooms.

Access the **Now Playing** screen to see what's playing next or edit the music in your queue.

Press and Hold the power button to set up a sleep timer.

VIDEO TILING

Display multiple sources on one screen with Savant IP Video.

Select from **Predefined Layouts**, drag a tile to move views, pinch to expand a particular source, or **Press and Drag** the **Audio Icon** to choose which source should provide sound.

Simply tap on a particular tile to bring up the correct control interface for that source. Savant determines the right controls for that source.

Access all your favorite channels at a touch. Save certain views with predefined layouts, channels + sources. You can also add a Tiling layout to a Savant Scene.

Activate Video Tiling from the convenience of your remote control. With the Savant Pro Remote you can Select from **Predefined Layouts**, change and control the sources, as well as select the source you want to hear.

SECURITY

The All-New 9.4 Savant Pro App Security Service integrates with your existing security system.

The buttons mimic your in-wall keypad so you can set your alarm from anywhere.

See the status of every sensor in your home at a glance.

Security cameras let you keep an eye on things when you're away.

ENTRY ACCESS

Garage and Door entry services are at your fingertips wherever you are.

Garage doors indicate if they are open or closed and show warnings if there are any problems.

Lock and unlock doors and see the status of which doors are locked and which are not at a glance.

View cameras to see who is at the door, even if you are away from home.

POOL & SPA

Control your pool and spa right from your device.

View current temperature and change desired temperature setting for Pools and Spas.

Select **Controls** to adjust other options including pool accent lighting, water jets, and fountains.

CUSTOM SCREENS

Speak to your Integrator about custom screen options.

Custom screens can be added to your Savant Pro App by your Authorized Savant Integrator.

Options include buttons for common activities that cannot be created in a Scene or to display status information for devices in your home.

DAYLIGHT MODE

Create and control your own Personal Wellness Experience.

With **Daylight Mode** activated, your lights will transition though color temperatures throughout the day to correspond to the sun.

Designed to help with your circadian rhythm, lights will adjust to warmer temperatures in the morning and evening and cooler in the middle of the day.

USAI Lighting, Savant DMX Light Strips & Smart Bulbs are all compatible with Daylight Mode.

APPLE WATCH

Merging the most sophisticated features with the greatest level of convenience.

Control and status has never been more convenient with the Savant Apple Watch app.

Capture the perfect moment and then save it as a **Savant Scene**. Use the Savant Apple Watch App to turn on and off any Savant Scenes, or only those that you frequently use.

Create **Notifications** to alert you to important status changes in your home, and then take action immediately and easily.

Default Circadian Light settings are based on target Circadian Stimulus scores and typical light levels, according to research by the Lighting Research Center.

VOICE CONTROL

You can use voice control to activate your Savant System. Choose from the security of user-activated voice functionality with the Savant Pro Remote and advanced Siri integration or add Google or Amazon Alexa voice control throughout the house to activate a Savant Scene without having to find the remote.

With a system running on 9.1 or higher, any Wi-Fi Savant Pro Remote can be set up for integration with Siri, Apple's intelligent voice assistant.

Any Savant Pro system running Savant 8.4 or later can have Google or Alexa voice services added to the system. Use the Alexa App, Google Home or Google Assistant Apps to activate. Visit savant.com for more details.

"Hey Siri,
watch Big Little Lies."

LANGUAGE SUPPORT

Experience Savant in multiple languages.

The Savant Pro App now supports language localization features across all iOS mobile devices.

Create and save Savant Scenes, view room names and sources all in English, Spanish, Simplified Chinese, Portuguese, Russian or Swedish.
